RV1 Propane Service Technician Training Program

Please be advised that _____ is a Recreational Vehicle 2 Certificate holder, whose certificate number is _____. He/she has been performing the tasks of an RV2 from _____ to _____. This complies with the requirement for a minimum of 6 months experience performing the duties of an RV2 Technician. This work was done under the general supervision of an RV1 certificate holder (RV1 Tech's name) _____. (Student's name) _____ has proven to be competent and demonstrated a safe and conscientious attitude.

(Student's name) _____ has observed the RV1 Certificate holder, named above, conduct a Pre-Delivery Inspection and reviewed the sequence of operation and purpose of the various controls and safety issues associated with the following propane appliances:

- Water heater with a thermocouple style of flame safety
- Water heater with electronic ignition
- Furnace with electronic ignition
- Kitchen range
- Refrigerator

I recommend (Student's name) _____ acceptance into the RV1 Propane Service Technician Training Program.
